Dear students,

There will be an assignment cum presentation on 21-11-19. IN this assignment a group has to make a computer program (in C, C++, Matlab, etc.) for the assigned problem. Further, each group has to demonstrate his code before us in the given schedule. A copy of the assigned problem and schedule is attached.

Please follow the given instructions:

a) The content of the assignment should be divided into three parts, as given below:

- 1: Abstract or Aim: What you are going to show.
- 2: Algorithm of the program:
- 3: Code of the program.

b) You **don't need to submit a hard copy** of the assignment, one representative of the group needs to **submit a soft copy (.pdf) of the assignment prepared in the above format by replying to this mail only. The deadline for submission of the assignment is 09:30 AM, 21-11-19.**

c) Each group has to carry **at least one system to demonstrate** its assignment.d) **We will not entertain beyond the deadline.**

With regards

Dr. Anand Kumar Tiwari
