

## **Brief Biodata**

**Anupam Agrawal** is working as Professor of Computer Science and Information Technology at Indian Institute of Information Technology Allahabad (IIIT-A) since 2012. Before joining IIIT-A in the year 2000, he was working as scientist 'D' at DEAL, DRDO, Govt. of India, Dehradun. He received his M.Tech. degree in Computer Science and Engineering from Indian Institute of Technology Madras, Chennai and Ph.D. degree in Information Technology from Indian Institute of Information Technology Allahabad (in association with Indian Institute of Technology, Roorkee). He was a postdoctoral researcher at the Department of Computer Science & Technology, University of Bedfordshire (UK) during which he had contributed significantly in two major European projects. His research interests include Computer Vision, Image Processing, Visual Computing, Soft-Computing and Human-Computer Interaction. He has more than 100 publications related to these areas in various international & national journals and conference proceedings, and has co-authored three books. He is the recipient of Er. Hari Mohan Memorial Award for the best research paper by the Institution of Engineers (India), Lucknow in November, 2005. He has filed a software patent related to large data visualization. He is on the review board for various international journals including IEEE, Springer, MDPI, Taylor & Francis and Elsevier. He has organized two international conferences as Program Chair/ Coordinator under the ACM and Springer banner. He is Coordinator of MTech Human-Computer Interaction Program and also a member of the Senate of IIIT Allahabad. He is currently serving as a Principal Investigator of an international (Indo-UK) Project. He is a member of ACM (USA), senior member of IEEE (USA) and a fellow of IETE (India).
