

User Agreement

IIITS_MFace Dataset for Face Detection and Recognition in Very Challenging Environment

I agree with following items.

- to cite the following publication in any paper of mine or my collaborators that makes any use of the database:
-Shiv Ram Dubey and Snehasis Mukherjee, "A Multi-Face Challenging Dataset for Robust Face Recognition", *15th International Conference on Control, Automation, Robotics and Vision (ICARCV)*, 2018.
- to use the images for research and teaching purposes only.
- not to provide the images to second parties.
- not to use for any commercial purpose without taking the prior approval from authors.
- not to use the face images in any such manner which leads to the embarrassment to the subjects involved in this database.
